The Power of Violin by Boban

Courtesy Eve-Marie Bilodeau

Fine [art](#) is now a part of the [Hyatt Regency Newport Beach Concert Series](#). Paintings and sculptures from [Galerie Simard Bilodeau](#) in Laguna Beach will be on display in the lobby library, and sculptures from the gallery will be near the concert venue.

“The exhibit will change every two weeks,” said Eve-Marie Bilodeau, owner of Galerie Simard Bilodeau. “It’s going to be very dynamic.”

On June 21, the annual summer concert series kicked off its 22nd season with five-time Grammy winner Michael McDonald. During the evening, concert guests, hotel guests and the public visited the library to enjoy artwork by Renzo, Desjardins, Boban and Torres.

Danielle Tiano, associate director for Simard Bilodeau, described the exhibit: “The viewers are intrigued by the playfulness and pull the art has on the wondering eye. The artists’ work appears to be growing towards you. As the light filters through, it occupies your entire vision.”

The sculpture, Power of Violin, by the artist Boban was on display near the entrance to the concert seating area, and more sculptures will be placed outside throughout the summer.

“This is very exciting to have the opportunity to present a taste of the collection we have at the gallery in these surroundings,” said Bilodeau. “It’s a great collaboration, and it’s an honor to be here.”
